Loving you just comes so easy
Like flying a kite on a day that's breezy
Or walking a long singing a song
On a sunny day.

I've got lots and lots of love for you
You've got lots and lots for me
Loving you just come so easy

When I close my eyes and dream
All of my dreams your love paints
The picture of everything I see
You're the orange sun of nightfall
You're the green fields I run through
You're bright white stars I wish upon
The blue heaven that I pray too

Loving you just comes so easy
Like holding hands or fingerpainting
Or walking along singing the song
On a sunny day

I've got lots and lots of love for you
You've got lots and lots for me
Loving you just comes so easy
